

Digital WITNESS Just witnesses digitally.

We are the professional manufacturer for digital video processing products. All products are Turnkey & Proprietary systems, so you don't need to operate win 98 or NT.

Digital WITNESS video transmission

Ultra High Quality Video Transmission in Real Time with the proprietary hi-speed encoder and decoder transmits or receives Broadcasting quality Video 30 frames per second. We use hardware flow control to fit versatile transmission media and different bandwidth.

Digital WITNESS Target identifier

Development based on simulation of military targeting. It can trace single target and multi targets, or it can identify any objects then trace and lock.

Digital WITNESS Digital Surveillance Video Recorder

RealTime and TimeLapse video recorder for surveillance with Proprietary data storage system named "VDFS", stores hi quality video RealTime in normal EIDE HDD, records

searching 1x ~ 300x and slows motion 1x~1/90x. VDFS reduces head movement to enhance hard disk effective performance and to extend MTBF 3~5 times. Even 5400 rpm IDE

& plays Broadcasting quality Video digitally, shows any speed bidirection without any noise, shuttles

hard disk can perform real time 30 frame Broadcasting quality video. Every frame with time code " yyyy/mm/dd hh:mm:ss ff ", you can search one frame form 40 GB video data in one second.
